# SAFETY PRECAUTIONS

## Meanings of symbols displayed on indoor unit and/or outdoor unit

	<b>WARNING</b> (Risk of fire)	This unit uses a flammable refrigerant. If refrigerant leaks and comes in contact with fire or heating part, it will create harmful gas and there is risk of fire.
		Read the OPERATING INSTRUCTIONS carefully before operation.
		Service personnel are required to carefully read the OPERATING INSTRUCTIONS and INSTALLATION MANUAL before operation.
		Further information is available in the OPERATING INSTRUCTIONS, INSTALLATION MANUAL, and the like.

- Since rotating parts and parts which could cause an electric shock are used in this product, be sure to read these "Safety Precautions" before use.
- Since the cautionary items shown here are important for safety, be sure to observe them.
- After reading this manual, keep it together with the installation manual in a handy place for easy reference.

### Marks and their meanings

- WARNING :** Incorrect handling could cause serious hazard, such as death, serious injury, etc. with a high probability.
- CAUTION :** Incorrect handling could cause serious hazard depending on the conditions.

### Meanings of symbols used in this manual

- : Be sure not to do.
- : Be sure to follow the instruction.
- : Never insert your finger or stick, etc.
- : Never step onto the indoor/outdoor unit and do not put anything on them.
- : Danger of electric shock. Be careful.
- : Be sure to disconnect the power supply plug from the power outlet.
- : Be sure to shut off the power.
- : Risk of fire.

<b>WARNING</b>	
	<p><b>Do not connect the power cord to an intermediate point, use an extension cord, or connect multiple devices to a single AC outlet.</b></p> <ul style="list-style-type: none"> <li>• This may cause overheating, fire, or electric shock.</li> </ul> <p><b>Make sure the power plug is free of dirt and insert it securely into the outlet.</b></p> <ul style="list-style-type: none"> <li>• A dirty plug may cause fire or electric shock.</li> </ul> <p><b>Do not bundle, pull, damage, or modify the power cord, and do not apply heat or place heavy objects on it.</b></p> <ul style="list-style-type: none"> <li>• This may cause fire or electric shock.</li> </ul> <p><b>Do not turn the breaker OFF/ON or disconnect/connect the power plug during operation.</b></p> <ul style="list-style-type: none"> <li>• This may create sparks, which can cause fire.</li> <li>• After the indoor unit is switched OFF with the remote controller, make sure to turn the breaker OFF or disconnect the power plug.</li> </ul>

	<p><b>Do not expose your body directly to cool air for a prolonged length of time.</b></p> <ul style="list-style-type: none"> <li>• This could be detrimental to your health.</li> </ul> <p><b>The unit should not be installed, relocated, disassembled, altered, or repaired by the user.</b></p> <ul style="list-style-type: none"> <li>• An improperly handled air conditioner may cause fire, electric shock, injury, or water leakage, etc. Consult your dealer.</li> <li>• If the power supply cord is damaged, it must be replaced by the manufacturer or its service agent in order to avoid a hazard.</li> </ul> <p><b>When installing, relocating, or servicing the unit, make sure that no substance other than the specified refrigerant (R32) enters the refrigerant circuit.</b></p> <ul style="list-style-type: none"> <li>• Any presence of foreign substance such as air can cause abnormal pressure rise and may result in explosion or injury.</li> <li>• The use of any refrigerant other than that specified for the system will cause mechanical failure, system malfunction, or unit breakdown. In the worst case, this could lead to a serious impediment to securing product safety.</li> </ul>
--	---

# SAFETY PRECAUTIONS

	<p>This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.</p> <p>Children should be supervised to ensure that they do not play with the appliance.</p>
 	<p>Do not insert your finger, a stick, or other objects into the air inlet or outlet.</p> <ul style="list-style-type: none"> <li>This may cause injury, since the fan inside rotates at high speeds during operation.</li> </ul>
 	<p>In case of an abnormal condition (such as a burning smell), stop the air conditioner and disconnect the power plug or turn the breaker OFF.</p> <ul style="list-style-type: none"> <li>A continued operation in the abnormal state may cause a malfunction, fire, or electric shock. In this case, consult your dealer.</li> </ul>
 	<p>When the air conditioner does not cool or heat, there is a possibility of refrigerant leakage. If any refrigerant leakage is found, stop operations and ventilate the room well and consult your dealer immediately. If a repair involves recharging the unit with refrigerant, ask the service technician for details.</p> <ul style="list-style-type: none"> <li>The refrigerant used in the air conditioner is not harmful. Normally, it does not leak. However, if refrigerant leaks and comes in contact with fire or heating part of such a fan heater, kerosene heater, or cooking stove, it will create harmful gas and there is risk of fire.</li> </ul> <p>The user should never attempt to wash the inside of the indoor unit. Should the inside of the unit require cleaning, contact your dealer.</p> <ul style="list-style-type: none"> <li>Unsuitable detergent may cause damage to plastic material inside the unit, which may result in water leakage. Should detergent come in contact with electrical parts or the motor, it will result in a malfunction, smoke, or fire.</li> <li>The appliance shall be stored in a room without continuously operating ignition sources (for example: open flames, an operating gas appliance or an operating electric heater).</li> <li>Be aware that refrigerants may not contain an odour.</li> <li>Do not use means to accelerate the defrosting process or to clean the appliance, other than those recommended by the manufacturer.</li> <li>Do not pierce or burn.</li> </ul> <p>The indoor unit must be installed in rooms which exceed the floor space specified. Please consult your dealer.</p>
	<p>This appliance is intended to be used by expert or trained users in shops, in light industry and on farms, or for commercial use by lay persons.</p>
 <b>CAUTION</b>	
	<p>Do not touch the air inlet or the aluminum fins of the indoor/outdoor unit.</p> <ul style="list-style-type: none"> <li>This may cause injury.</li> </ul>
	<p>Do not use insecticides or flammable sprays on the unit.</p> <ul style="list-style-type: none"> <li>This may cause a fire or deformation of the unit.</li> </ul>
	<p>Do not expose pets or houseplants to direct airflow.</p> <ul style="list-style-type: none"> <li>This may cause injury to the pets or plants.</li> </ul>
	<p>Do not place other electric appliances or furniture under the indoor/outdoor unit.</p> <ul style="list-style-type: none"> <li>Water may drip down from the unit, which may cause damage or malfunction.</li> </ul>
	<p>Do not leave the unit on a damaged installation stand.</p> <ul style="list-style-type: none"> <li>The unit may fall and cause injury.</li> </ul>
	<p>Do not step on an unstable bench to operate or clean the unit.</p> <ul style="list-style-type: none"> <li>This may cause injury if you fall down.</li> </ul>
	<p>Do not pull the power cord.</p> <ul style="list-style-type: none"> <li>This may cause a portion of the core wire to break, which may cause overheating or fire.</li> </ul>

	<p>Do not operate the unit for more than 4 hours at high humidity (80% RH or more) and/or with windows or outside door left open.</p> <ul style="list-style-type: none"> <li>This may cause the water condensation in the air conditioner, which may drip down, wetting or damaging the furniture.</li> <li>The water condensation in the air conditioner may contribute to growth of fungi, such as mold.</li> </ul>
	<p>Do not use the unit for special purposes, such as storing food, raising animals, growing plants, or preserving precision devices or art objects.</p> <ul style="list-style-type: none"> <li>This may cause deterioration of quality, or harm to animals and plants.</li> </ul>
	<p>Do not expose combustion appliances to direct airflow.</p> <ul style="list-style-type: none"> <li>This may cause incomplete combustion.</li> </ul>
	<p>Do not operate the unit at the outdoor temperature below the lower limit of operating temperature.</p> <ul style="list-style-type: none"> <li>This may cause a deterioration in cooling performance or droplets dripping from the air outlet of indoor unit.</li> </ul>
	<p>Before cleaning the unit, switch it OFF and disconnect the power plug or turn the breaker OFF.</p> <ul style="list-style-type: none"> <li>This may cause injury, since the fan inside rotates at high speeds during operation.</li> </ul>
	<p>When the unit will be unused for a long time, disconnect the power plug or turn the breaker OFF.</p> <ul style="list-style-type: none"> <li>The unit may accumulate dirt, which may cause overheating or fire.</li> </ul>
	<p>Ensure that the area is well-ventilated when the unit is operated together with a combustion appliance.</p> <ul style="list-style-type: none"> <li>Inadequate ventilation may cause oxygen starvation.</li> </ul>
	<p>Turn the breaker OFF when you hear thunder and there is a possibility of a lightning strike.</p> <ul style="list-style-type: none"> <li>The unit may be damaged if lightning strikes.</li> </ul>
	<p>After the air conditioner is used for several seasons, perform inspection and maintenance in addition to normal cleaning.</p> <ul style="list-style-type: none"> <li>Dirt or dust in the unit may create an unpleasant odor, contribute to growth of fungi, such as mold, or clog the drain passage, and cause water to leak from the indoor unit. Consult your dealer for inspection and maintenance, which require specialized knowledge and skills.</li> </ul>
	<p>Do not operate switches with wet hands.</p> <ul style="list-style-type: none"> <li>This may cause electric shock.</li> </ul>
	<p>Do not clean the air conditioner with water or place an object that contains water, such as a flower vase, on it.</p> <ul style="list-style-type: none"> <li>This may cause fire or electric shock.</li> </ul>
	<p>Do not step on or place any object on the outdoor unit.</p> <ul style="list-style-type: none"> <li>This may cause injury if you or the object falls down.</li> </ul>

 **IMPORTANT**

Dirty filters cause condensation in the air conditioner which will contribute to the growth of fungi such as mold. It is therefore recommended to clean air filters every 2 weeks.

EN

# SAFETY PRECAUTIONS

## For installation

### WARNING

	<p><b>Consult your dealer for installing the air conditioner.</b></p> <ul style="list-style-type: none"> <li>It should not be installed by the user since installation requires specialized knowledge and skills. An improperly installed air conditioner may cause water leakage, fire, or electric shock.</li> </ul>
	<p><b>Provide a dedicated power supply for the air conditioner.</b></p> <ul style="list-style-type: none"> <li>A non-dedicated power supply may cause overheating or fire.</li> </ul>
	<p><b>Do not install the unit where flammable gas could leak.</b></p> <ul style="list-style-type: none"> <li>If gas leaks and accumulates around the outdoor unit, it may cause an explosion.</li> </ul>
	<p><b>Earth the unit correctly.</b></p> <ul style="list-style-type: none"> <li>Do not connect the earth wire to a gas pipe, water pipe, lightning rod, or a telephone earth wire. Improper earthing may cause electric shock.</li> </ul>
<h3> CAUTION</h3>	
	<p><b>Install an earth leakage breaker depending on the installation location of the air conditioner (such as highly humid areas).</b></p> <ul style="list-style-type: none"> <li>If an earth leakage breaker is not installed, it may cause electric shock.</li> </ul>
	<p><b>Ensure that the drain water is properly drained.</b></p> <ul style="list-style-type: none"> <li>If the drain passage is improper, water may drip down from the indoor/outdoor unit, wetting and damaging the furniture.</li> </ul>

#### In case of an abnormal condition

Immediately stop operating the air conditioner and consult your dealer.

EN

# DISPOSAL

To dispose of this product, consult your dealer.

#### Note:

This symbol mark is for EU countries only.  
 This symbol mark is according to the directive 2012/19/EU Article 14 Information for users and Annex IX, and/or to the directive 2006/66/EC Article 20 Information for end-users and Annex II.

Fig. 1

Your MITSUBISHI ELECTRIC product is designed and manufactured with high quality materials and components which can be recycled and/or reused.

This symbol means that electrical and electronic equipment, batteries and accumulators, at their end-of-life, should be disposed of separately from your household waste.

If a chemical symbol is printed beneath the symbol (Fig. 1), this chemical symbol means that the battery or accumulator contains a heavy metal at a certain concentration. This will be indicated as follows:

Hg: mercury (0.0005%), Cd: cadmium (0.002%), Pb: lead (0.004%)

In the European Union there are separate collection systems for used electrical and electronic products, batteries and accumulators.

Please, dispose of this equipment, batteries and accumulators correctly at your local community waste collection/recycling centre.

Please, help us to conserve the environment we live in!

# NAME OF EACH PART

## Indoor unit

## Outdoor unit

Outdoor units may be different in appearance.

\*1 The manufacturing year and month is indicated on the spec name plate.

## Wired remote controller (OPTION) Wired remote controllers may be different appearance.

### Controller interface

#### ① [OFF/ON] button

Press to turn OFF/ON the indoor unit.

#### ② [SELECT] button

Press to save the setting.

#### ③ [RETURN] button

Press to return to the previous screen.

#### ④ [MENU] button

Press to bring up the Main menu.

#### ⑤ Backlit LCD

Operation settings will appear.  
When the backlight is off, pressing any button turns the backlight on and it will stay lit for a certain period of time depending on the screen.

When the backlight is off, pressing any button turns the backlight on and does not perform its function. (except for the [OFF/ON] button)

#### Note:

As for the remote controller which is different in appearance, refer to the operation manual included with the remote controller.

The functions of the function buttons change depending on the screen. Refer to the button function guide that appears at the bottom of the LCD for the functions they serve on a given screen.

When the system is centrally controlled, the button function guide that corresponds to the locked button will not appear.

#### ⑥ OFF/ON lamp

This lamp lights up in green while the unit is in operation. It blinks while the remote controller is starting up or when there is an error.

#### ⑦ Function button [F1]

Main display: Press to change the operation mode.  
Main menu: Press to move the cursor down.

#### ⑧ Function button [F2]

Main display: Press to decrease temperature.  
Main menu: Press to move the cursor up.

#### ⑨ Function button [F3]

Main display: Press to increase temperature.  
Main menu: Press to go to the previous page.

#### ⑩ Function button [F4]

Main display: Press to change the fan speed.  
Main menu: Press to go to the next page.

# NAME OF EACH PART

## Display

The main display can be displayed in two different modes: "Full" and "Basic". The factory setting is "Full". To switch to the "Basic" mode, change the setting on the Main display setting. (Refer to operation manual included with remote controller.)

### ■ Full mode

\* All icons are displayed for explanation.

### ■ Basic mode

EN

#### ① Operation mode

Indoor unit operation mode appears here.

#### ② Preset temperature

Preset temperature appears here.

#### ③ Clock (See the Installation Manual of remote controller.)

Current time appears here.

#### ④ Fan speed

Fan speed setting appears here.

#### ⑤ Button function guide

Functions of the corresponding buttons appear here.

#### ⑥ Room temperature (See the Installation Manual of remote controller.)

Current room temperature appears here.

#### ⑦ See the Installation Manual of remote controller.

Appears when the buttons are locked.

#### ⑧

Appears when the ON/OFF timer, Night setback, or Auto-off timer function is enabled.

#### ⑨

Indicates the vane setting.

Most settings (except OFF/ON, mode, fan speed, temperature) can be made from the Menu screen. (Refer to operation manual included with remote controller.)

## Remote controller

MAC-SL100M-E (optional) may be used with this product.

If two or more indoor units are installed in proximity to one another, an indoor unit that is not intended to be operated may respond to the remote controller.

#### Remote controller

When the remote controller is not used, place it near this unit.

#### Note:

- Read the instruction paper of the wireless remote controller carefully before use.
- This product cannot use the heating mode and ECONO COOL operation.

# OPERATION

■ About the operation method, refer to the operation manual that comes with each remote controller.

## Turning OFF/ON

### [OFF]

Press the [OFF/ON] button.  
The OFF/ON lamp will come off, and the operation will stop.

### [ON]

Press the [OFF/ON] button again.  
The OFF/ON lamp will light up in green, and the operation will start.

### Note:

Even if you press the OFF/ON button immediately after shutting down the operation is progress, the air conditioner will not start for about 3 minutes. This is to prevent the internal components from being damaged.

### ■ Operation status memory

	Remote controller setting
Operation mode	Operation mode before the power was turned off
Preset temperature	Preset temperature before the power was turned off
Fan speed	Fan speed before the power was turned off

### ■ Settable preset temperature range

Operation mode	Preset temperature range
Cool/Dry	16 ~ 31°C
Fan/Ventilation	Not settable

## Operation indicator lamp

The operation indicator lamp shows the operation state of the unit.

Indication	Operation state	Room temperature
☀	The unit is operating to reach the set temperature	About 2°C or more away from set temperature
☀ ○	The room temperature is approaching the set temperature	About 1 to 2°C from set temperature

☀ Lit      ○ Not lit

## Mode selection

- ☀ **COOL mode** Enjoy cool air at your desired temperature.
- 💧 **DRY mode** Dehumidify your room. The room may be cooled slightly.
- 🌀 **FAN mode** Circulate the air in your room.

Press the [F1] button to go through the operation modes in the order of "Cool", "Dry", and "Fan". Select the desired operation mode.

## Temperature setting

### Cool and Dry

Example display  
(Centigrade in 0.5-degree increments)

Press the [F2] button to decrease the preset temperature, and press the [F3] button to increase.

- Refer to the table on [page 6](#) for the settable temperature range for different operation modes.
- Preset temperature range cannot be set for Fan/Ventilation operation.
- Preset temperature will be displayed either in Centigrade in 0.5- or 1-degree increments, or in Fahrenheit, depending on the display mode setting on the remote controller.

# OPERATION

## Fan speed setting

Press the [F4] button to go through the fan speeds in the following order.

## Navigating through the Main menu

### Accessing the Main menu

Press the [MENU] button.  
The Main menu will appear.

### Item selection

Cursor →

Press [F1] to move the cursor down.  
Press [F2] to move the cursor up.

## Navigating through the pages

Press [F3] to go to the previous page.  
Press [F4] to go to the next page.

## Saving the settings

Select the desired item, and press the [SELECT] button.  
The screen to set the selected item will appear.

## Exiting the Main menu screen

Press the [RETURN] button to exit the Main menu and return to the Main display.

If no buttons are touched for 10 minutes, the screen will automatically return to the Main display. Any settings that have not been saved will be lost.

## Display of unsupported functions

The message at above will appear if the user selects a function not supported by the corresponding indoor unit model.

# OPERATION

## Airflow direction

### Accessing the menu

Select "Vane-Louver-Vent. (Lossnay)" from the Main menu [page 7](#), and press the [SELECT] button.

### Vane setting

Press the [F1] or [F2] button to go through the vane setting options: "Auto", "Step 1", "Step 2", "Step 3", "Step 4", "Step 5" and "Swing". Select the desired setting.

Select "Swing" to move the vanes up and down automatically. When set to "Step 1" through "Step 5", the vane will be fixed at the selected angle. If the lower position is selected during COOL/DRY, the vane automatically moves to the upward after 0.5 to 1 hour to prevent any condensation from dripping.

### Returning to the Main menu

Press the [RETURN] button to go back to the Main menu.

### Note:

- During swing operation, the directional indication on the screen does not change in sync with the directional vanes on the unit.
- Available directions depend on the type of unit connected.

### To change the horizontal airflow direction.

Move the vertical vane manually before starting operation.

## TIMER OPERATION (ON/OFF TIMER)

### For remote controller

- Timer functions are different by each remote controller.
- For details on how to operate the remote controller, refer to the appropriate operation manual included with each remote controller.
- If power failure occurs while ON/OFF timer is set, see "Auto restart function".

## EMERGENCY OPERATION

### When the remote controller cannot be used...

Emergency operation can be activated by pressing the emergency operation switch (E.O. SW) on the indoor unit. Each time the E.O. SW is pressed, the operation changes in the following order:

### Note:

The first 30 minutes of operation is test run. Temperature control does not work, and fan speed is set to High.

## AUTO RESTART FUNCTION

If a power failure occurs or the main power is turned off during operation, "Auto restart function" automatically starts operation in the same mode as the one set with the remote controller just before the shutoff of the main power. When timer is set, timer setting is cancelled and the unit starts operation when power is resumed.

If you do not want to use this function, please consult the service representative because the setting of the unit needs to be changed.

# CLEANING

## Instructions:

- Switch off the power supply or turn off the breaker before cleaning.
- Be careful not to touch the metal parts with your hands.
- Do not use benzene, thinner, polishing powder, or insecticide.
- When dirt stands out, wash it with kitchen neutral detergent diluted with lukewarm water to the specified concentration, then wipe off the detergent with a damp towel.
- Do not use a scrubbing brush, a hard sponge, or the like.
- Do not soak or rinse the horizontal vane.
- Do not use water hotter than 50°C.
- Do not expose parts to direct sunlight, heat, or fire to dry.
- Do not apply excessive force on the fan as it may cause cracks or breakage.

EN

### Air filter

- **Clean every 2 weeks**
- Remove dirt by a vacuum cleaner, or rinse with water.
- After washing with water, dry it well in shade.

### Front panel

1. Lift the front panel until a "click" is heard.
2. Hold the hinges and pull to remove as shown in the illustration above.
  - Wipe with a soft dry cloth or rinse it with water.
  - Do not soak it in water for more than two hours.
  - Dry it well in shade.
3. Install the front panel by following the removal procedure in reverse. Close the front panel securely and press the positions indicated by the arrows.

### ! Important

- **Clean the filters regularly for best performance and to reduce power consumption.**
- **Dirty filters cause condensation in the air conditioner which will contribute to the growth of fungi such as mold. It is therefore recommended to clean air filters every 2 weeks.**

This information is based on **REGULATION (EU) No 528/2012**

MODEL NAME	Treated Article (Parts name)	Active Substances (CAS No.)	Property	Instruction for Use (Safe handling information)
MSY-TP35/50VF	FILTER	TBZ (148-79-8)	Antimold	<ul style="list-style-type: none"> <li>• Use this product in line with the instruction manual indications and for the intended purpose only.</li> <li>• Do not put into mouth. Keep away from children.</li> </ul>

# WHEN YOU THINK THAT TROUBLE HAS OCCURRED

Even if these items are checked, when the unit does not recover from the trouble, stop using the air conditioner and consult your dealer.

Symptom	Explanation & Check points
<b>Indoor Unit</b>	
The unit cannot be operated.	<ul style="list-style-type: none"> <li>Is the breaker turned on?</li> <li>Is the power supply plug connected?</li> <li>Is the ON timer set? <a href="#">Page 8</a></li> </ul>
The horizontal vane does not move.	<ul style="list-style-type: none"> <li>Are the horizontal vane and the vertical vane installed correctly?</li> <li>Is the fan guard deformed?</li> <li>When the breaker is turned on, the horizontal vanes' position will be reset in about a minute. After the reset has completed, the normal horizontal vanes' operation resumes. The same is true in the emergency cooling operation.</li> </ul>
The unit cannot be operated for about 3 minutes when restarted.	<ul style="list-style-type: none"> <li>This protects the unit according to instructions from the microprocessor. Please wait.</li> </ul>
Mist is discharged from the air outlet of the indoor unit.	<ul style="list-style-type: none"> <li>The cool air from the unit rapidly cools moisture in the air inside the room, and it turns into mist.</li> </ul>
The swing operation of the HORIZONTAL VANE is suspended for a while, then restarted.	<ul style="list-style-type: none"> <li>This is for the swing operation of the HORIZONTAL VANE to be performed normally.</li> </ul>
The airflow direction changes during operation. The direction of the horizontal vane cannot be adjusted with the remote controller.	<ul style="list-style-type: none"> <li>When the unit is operated in COOL or DRY mode, if the operation continues with air blowing down for 0.5 to 1 hour, the direction of the airflow is automatically set to upward position to prevent water from condensing and dripping.</li> </ul>
The unit starts operation by itself when the main power is turned on, but hasn't received sign from the remote controller.	<ul style="list-style-type: none"> <li>These models are equipped with an auto restart function. When the main power is turned off without stopping the unit with the remote controller and is turned on again, the unit starts operation automatically in the same mode as the one set with the remote controller just before the shutoff of the main power. Refer to "Auto restart function". <a href="#">Page 8</a></li> </ul>
In COOL/DRY mode, when the room temperature reaches near the set temperature, the outdoor unit stops, then the indoor unit operates at low speed.	<ul style="list-style-type: none"> <li>When the room temperature deviates from the set temperature, the indoor fan starts running according to the settings on the remote controller.</li> </ul>
The indoor unit discolors over time.	<ul style="list-style-type: none"> <li>Although plastic turns yellow due to the influence of some factors such as ultraviolet light and temperature, this has no effect on the product functions.</li> </ul>
<b>Outdoor Unit</b>	
The fan of the outdoor unit does not rotate even though the compressor is running. Even if the fan starts to rotate, it stops soon.	<ul style="list-style-type: none"> <li>When the outside temperature is low during cooling operation, the fan operates intermittently to maintain sufficient cooling capacity.</li> </ul>
Water leaks from the outdoor unit.	<ul style="list-style-type: none"> <li>During COOL and DRY operations, pipe or pipe connecting sections are cooled and this causes water to condense.</li> </ul>
<b>Does not cool</b>	
The room cannot be cooled sufficiently.	<ul style="list-style-type: none"> <li>Is the temperature setting appropriate? <a href="#">Page 6</a></li> <li>Is the fan setting appropriate? Please change fan speed to High or Super High. <a href="#">Page 7</a></li> <li>Are the filters clean? <a href="#">Page 9</a></li> <li>Is the fan or heat exchanger of the indoor unit clean? <a href="#">Page 9</a></li> <li>Are there any obstacles blocking the air inlet or outlet of the indoor or outdoor unit?</li> <li>Is a window or door open?</li> <li>It may take a certain time to reach the setting temperature or may not reach that depending on the size of the room, the ambient temperature, and the like.</li> <li>When a ventilation fan or a gas cooker is used in a room, the cooling load increases, resulting in an insufficient cooling effect.</li> <li>When the outside temperature is high, the cooling effect may not be sufficient. When the ambient temperature is out of the "Guaranteed operating range", COOL mode may be unable to operate. <a href="#">Page 11</a></li> </ul>

Symptom	Explanation & Check points
<b>Airflow</b>	
The air from the indoor unit smells strange.	<ul style="list-style-type: none"> <li>Are the filters clean? <a href="#">Page 9</a></li> <li>Is the fan or heat exchanger of the indoor unit clean? <a href="#">Page 9</a></li> <li>The unit may suck in an odor adhering to the wall, carpet, furniture, cloth, etc. and blow it out with the air.</li> </ul>
<b>Sound</b>	
Cracking sound is heard.	<ul style="list-style-type: none"> <li>This sound is generated by the expansion/contraction of the front panel, etc. due to change in temperature.</li> </ul>
"Bubbling" sound is heard.	<ul style="list-style-type: none"> <li>This sound is heard when the outside air is absorbed from the drain hose by turning on the range hood or the ventilation fan, making water flowing in the drain hose to spout out. This sound is also heard when the outside air blows into the drain hose in case the outside wind is strong.</li> </ul>
Mechanical sound is heard from the indoor unit.	<ul style="list-style-type: none"> <li>This is the switching sound in turning on/off the fan or the compressor.</li> </ul>
The sound of water flowing is heard.	<ul style="list-style-type: none"> <li>This is the sound of refrigerant or condensed water flowing in the unit.</li> </ul>
Hissing sound is sometimes heard.	<ul style="list-style-type: none"> <li>This is the sound when the flow of refrigerant inside the unit is changed.</li> </ul>
<b>Wired Remote controller</b>	
"  " appears in the remote controller display.	<ul style="list-style-type: none"> <li>During central control, "" appears in the remote controller display and air conditioner operation cannot be started or stopped using the remote controller.</li> </ul>
"PLEASE WAIT" appears in the remote controller display.	<ul style="list-style-type: none"> <li>The initial settings are being performed. Wait approximately 3 minutes.</li> </ul>
An error code appears in the remote controller display.	<ul style="list-style-type: none"> <li>The protection devices have operated to protect the air conditioner.</li> <li>Do not attempt to repair this equipment by yourself. Turn off the power switch immediately and consult your dealer. Be sure to provide the dealer with the model name and information that appeared in the remote controller display.</li> </ul>
<b>Wireless Remote controller</b>	
The display on the remote controller does not appear or it is dim. The indoor unit does not respond to the remote control signal.	<ul style="list-style-type: none"> <li>Are the batteries exhausted?</li> <li>Is the polarity (+, -) of the batteries correct?</li> <li>Are any buttons on the remote controller of other electric appliances being pressed?</li> </ul>

In the following cases, stop using the air conditioner and consult your dealer.

- When water leaks or drips from the indoor unit.
- When the upper operation indicator lamp blinks.
- When the breaker trips frequently.
- Operation of the air conditioner interferes with radio or TV reception. An amplifier may be required for the affected device.
- When an abnormal sound is heard.
- When any refrigerant leakage is found.

EN

## WHEN THE AIR CONDITIONER IS NOT GOING TO BE USED FOR A LONG TIME

- 1 Operate by COOL mode with the highest temperature set or FAN mode for 3 to 4 hours. **Page 6**
  - This dries the inside of the unit.
  - Moisture in the air conditioner contributes to favorable conditions for growth of fungi, such as mold.

- 2 Press  to stop the operation.

- 3 Turn off the breaker and/or disconnect the power supply plug.

EN

**Note:**

**When using the Wireless Remote Controller:**  
Remove the batteries from the remote controller.

### When using the air conditioner again:

- 1 Clean the air filter. **Page 9**
- 2 Check that the air inlet and outlet of the indoor and outdoor units are not blocked.
- 3 Check that the earth is connected correctly.

**Note:**

**When using the Wireless Remote Controller:**  
Follow the instructions on the instruction paper included with the Wireless Remote Controller.

## INSTALLATION PLACE AND ELECTRICAL WORK

### Installation place

**Avoid installing the air conditioner in the following places.**

- Where there is much machine oil.
- Salty places such as the seaside.
- Where sulfide gas is generated such as hot spring, sewage, waste water.
- Where oil is splashed or where the area is filled with oily smoke (such as cooking areas and factories, in which the properties of plastic could be changed and damaged).
- Where there is high-frequency or wireless equipment.
- Where the air from the outdoor unit air outlet is blocked.
- Where the operation sound or air from the outdoor unit bothers the house next door.
- The mounting height of indoor unit 1.8 m to 2.3 m is recommended. If it is impossible, please consult your dealer.
- Do not operate the air conditioner during interior construction and finishing work, or while waxing the floor. Before operating the air conditioner, ventilate the room well after such work is performed. Otherwise, it may cause volatile elements to adhere inside the air conditioner, resulting in water leakage or scattering of dew.

### Electrical work

- Provide an exclusive circuit for the power supply of the air conditioner.
  - Be sure to observe the breaker capacity.
- If you have any questions, consult your dealer.**

## SPECIFICATIONS

Model	Set name		MSY-TP35VF	MSY-TP50VF
	Indoor		MSY-TP35VF	MSY-TP50VF
	Outdoor		MUY-TP35VF	MUY-TP50VF
Power supply			~ /N, 230 V, 50 Hz	
Capacity		kW	3.5	5.0
Input		kW	0.76	1.45
Weight	Indoor	kg	12.5	
	Outdoor	kg	33	
Refrigerant filling capacity (R32)		kg	0.85	
IP code	Indoor		IP 20	
	Outdoor		IP 24	
Permissible excessive operating pressure	LP ps	MPa	2.77	
	HP ps	MPa	4.17	
Noise level	Indoor (Super High/High/Med./Low)	dB(A)	45/40/36/31	
	Outdoor	dB(A)	45	47

### Guaranteed operating range

		Indoor	Outdoor
Cooling	Upper limit	32°C DB 23°C WB	46°C DB —
	Lower limit	21°C DB 15°C WB	-25°C DB —

DB: Dry Bulb  
WB: Wet Bulb

**Note:**

Rating condition  
Cooling — Indoor: 27°C DB, 19°C WB  
Outdoor: 35°C DB

**MITSUBISHI ELECTRIC CONSUMER PRODUCTS (THAILAND) CO., LTD**  
**AMATA NAKORN INDUSTRIAL ESTATE 700/406 MOO 7, TAMBON DON HUA ROH, AMPHUR MUANG, CHONBURI 20000, THAILAND**

hereby declares under its sole responsibility that the air conditioners and heat pumps described below for use in residential, commercial and light-industrial environments:  
erklärt hiermit auf seine alleinige Verantwortung, dass die Klimaanlage und Wärmepumpen für das häusliche, kommerzielle und leicht-industrielle Umfeld wie unten beschrieben:  
déclare par la présente et sous sa propre responsabilité que les climatiseurs et les pompes à chaleur décrits ci-dessous, destinés à un usage dans des environnements résidentiels, commerciaux et d'industrie légère :  
verklaart hierbij onder eigen verantwoordelijkheid dat de voor residentiële, commerciële en licht-industriële omgevingen bestemde airconditioners en warmtepompen zoals onderstaand beschreven:  
por la presente declara bajo su única responsabilidad que los acondicionadores de aire y bombas de calor descritas a continuación para su uso en entornos residenciales, comerciales y de industria ligera:  
conferma con la presente, sotto la sua esclusiva responsabilità, che i condizionatori d'aria e le pompe di calore descritti di seguito e destinati all'utilizzo in ambienti residenziali, commerciali e semi-industriali:  
με το παρόν πιστοποιώ με αποκλειστική της ευθύνη ότι οι τα κλιματιστικά και οι αντλίες θέρμανσης που περιγράφονται παρακάτω για χρήση σε οικιακό, επαγγελματικό και ελαφριάς βιομηχανίας περιβάλλοντα:  
através da presente declara sob sua única responsabilidade que os aparelhos de ar condicionado e bombas de calor abaixo descritos para uso residencial, comercial e de indústria ligeira:  
erklærer hermed under eneansvar, at de herunder beskrevne airconditionanlæg og varmepumper til brug i privat boligbyggeri, erhvervsområder og inden for let industri:  
intyggar härmed att luftkonditioneringarna och värmepumparna som beskrivs nedan för användning i bostäder, kommersiella miljöer och lätta industriella miljöer:  
ev, ticaret ve hafif sanayi ortamlarında kullanım amaçlı üretilen ve aşağıda açıklanan klima ve ısıtma pompalarıyla ilgili aşağıdaki hususları yalnızca kendi sorumluluğunda beyan eder:  
декларира на своя собствена отговорност, че климатизите и термопомпите, описани по-долу, за употреба в жилища, търговски и леки промишлени условия:  
niniejszym oświadczam na swoją wyłączną odpowiedzialność, że klimatyzatory i pompy ciepła opisane poniżej, są przeznaczone do zastosowań w środowisku mieszkalnym, handlowym i lekko uprzemysłowionym:  
erklærer et fullstendig ansvar for undernevnte klimaanlegg og varmepumper ved bruk i boliger, samt kommersielle og lettindustrielle miljøer:  
vakuuttaa täten yksinomaista vastuutaan, että jäljempänä kuvatut asuinrakennuksiin, pientaloisuuskäyttöön ja kaupalliseen käyttöön tarkoitettui ilmastointilaitteet ja lämpöpumput:  
tímto na vlastní odpovědnost prohlašuje, že níže popsané klimatizační jednotky a tepelná čerpadla pro použití v obytných prostedích, komerčních prostedích a prostedích lenkého prmyslu:  
týmto na svoju výlučnú zodpovednosť vyhlasuje, že nasledovné klimatizačné jednotky a tepelné čerpadlá určené na používanie v obytných a obchodných priestoroch a v prostredí ľahkého priemyslu:  
alulírott kizárólagos felelősségére nyilatkozik, hogy az alábbi lakossági, kereskedelmi és kisipari környezetben való használatra szánt klímaberendezések és hőszivattyúk:  
izjavlja pod izključno lastno odgovornostjo, da so spodaj navedene klimatske naprave in toplotne črpalke, namenjene uporabi v stanovanjskih, komercialnih in lahkoindustrijskih okoljih:  
declară, prin prezenta, pe proprie răspundere, faptul că aparatele de climatizare și pompele de căldură descrise mai jos și destinate utilizării în medii rezidențiale, comerciale și din industria ușoară:  
kinnitab käesolevaga oma ainuvastutusele, et allpool toodud kliimaseadmed ja soojuspumbad on mõeldud kasutamiseks elu-, äri- ja kergtööstuskeskkondades:  
ar so, vienpersoniski uzņemoties atbildību, paziņo, ka tālāk aprakstītie gaisa kondicionētāji un siltumsūkņi ir paredzēti lietošanai dzīvojamajās, komercdarbības un vieglās rūpniecības telpās.  
šiuo vien tik savo atsakomybe pareiškia, kad toliau apibūdinti oro kondicionieriai ir šilumos siurbiai skirti naudoti gyvenamosiose, komercinėse ir lengvosios pramonės aplinkose:  
ovime izjavljuje pod isključivom odgovornošću da su klimatizacijski uređaji i toplinske dizalice opisane u nastavku namijenjeni za upotrebu u stambenim i poslovnim okruženjima te okruženjima lake industrije:  
ovim izjavljuje na svoju isključivu odgovornost da su klima-uređaji i toplotne pumpe opisane u daljem tekstu za upotrebu u stambenim, komercijalnim okruženjima i okruženjima sa lakom industrijom:  
настоящим заявляет и берет на себя исключительную ответственность за то, что кондиционеры и тепловые насосы, описанные ниже и предназначенные для эксплуатации в жилых помещениях, торговых залах и на предприятиях легкой промышленности:  
цим заявляю, беручи на себе повну відповідальність за це, що кондиціонери й теплові насоси, описані нижче й призначені для використання в житлових приміщеннях, торговельних залах і на підприємствах легкої промисловості:

**MITSUBISHI ELECTRIC, MSY-TP35VF/MUY-TP35VF, MSY-TP50VF/MUY-TP50VF**

Note: Its serial number is on the nameplate of the product.  
Hinweis: Die Seriennummer befindet sich auf dem Kennschild des Produkts.  
Remarque : Le numéro de série de l'appareil se trouve sur la plaque du produit.  
Opmerking: het serienummer staat op het naamplaatje van het product.  
Nota: El número de serie se encuentra en la placa que contiene el nombre del producto.  
Nota: il numero di serie si trova sulla targhetta del prodotto.  
Σημείωση: Ο σειριακός του αριθμός βρίσκεται στην πινακίδα ονόματος του προϊόντος.  
Nota: o número de série encontra-se na placa que contém o nome do produto.  
Bemærk: Seriennummeret står på produktets fabriksskilt.  
Obs: Serienumret finns på produktens namnplåt.  
Not: Seri numarasi ürünün isim plakasında yer alır.  
Забележка: Серийният му номер е на табелката на продукта.  
Uwaga: Numer seryjny znajduje się na tabliczce znamionowej produktu.  
Merk: Seriennummeret befinnet seg på navneplaten til produktet.

Huomautus: Sarjanumero on merkitty laitteen arvokilpeen.  
Poznámka: Příslušné sériové číslo se nachází na štítku produktu.  
Poznámka: Výrobné číslo sa nachádza na typovom štítku výrobku.  
Megjegyzés: A sorozatszám a termék adattábláján található.  
Opomba: serijska številka je zapisana na tipski ploščici enote.  
Notă: Numărul de serie este specificat pe plăcuța indicatoare a produsului.  
Márkus: Seerianumber asub toote andmesildil.  
Piezīme: Serijas numurs ir norādīts uz ierīces datu plāksnītes.  
Pastaba: Serijos numeris nurodytas gaminio vardinį duomenų lentelėje.  
Napomena: serijski broj nalazi se na natpisnoj pločici proizvoda.  
Napomena: Serijski broj nalazi se na nazivnoj pločici proizvoda.  
Примечание: серийный номер указан на паспортной табличке изделия.  
Примітка: Серійний номер вказано на паспортній таблиці виробу.
